## Your voice matters.

A few weeks ago you received a survey from Alberta Education asking for your participation in your child's education. It is very important for your school and for the provincial government to include your opinion to improve the quality of education your child is receiving. If you have already responded, thank you for your help and excuse this card. If you haven't responded, won't you please take a minute to do so?

If you require additional information, please call Steve Mitchell at (780) 422-2849 (Toll-free access within Alberta by dialing 310-0000 first). Again, thank you.
