This document contains a release of selected test items from the 2010 Mathematics Achievement Test in Grade 6.

A test blueprint and an answer key are included in this document. These materials, along with the program of studies and subject bulletin, provide information that can be used to inform instructional practice.

Assessment Highlights reports for all achievement test subjects and grades will be posted on the Alberta Education website every year in the fall. Assessment Highlights provide information about the overall test, the test blueprints, and student performance on the 2010 Mathematics Achievement Test in Grade 6. Also provided is commentary on student performance at the acceptable standard and the standard of excellence on selected items from the 2010 Achievement test. This information is intended for teachers and is best used in conjunction with the multi-year and detailed school reports that are available to schools via the extranet.
