## Student Exchange Program

---

### How does it work?

This unique program is facilitated by Alberta Education's Student Exchange Programs. Students from Alberta are paired with students from the Hessen state of Germany. Taking place over one school year, paired students will attend school together in the same location at the same time for 12 weeks each.

- August to November (first semester) – Students from Germany will attend school in Alberta.
- Late February/early March – late May (second semester) – Alberta students will attend school in Germany.

### What is the cost?

Families are responsible for the costs associated with hosting the exchange partner. Families are also expected to cover their son's or daughter's travel expenses and provide enough spending money for his/her time away. As this is a reciprocal exchange, school tuition fees are waived on both sides. Please note that all Alberta students' return flights and emergency medical travel insurance must be booked through the travel agency and insurance provider identified by Alberta Education.

### Who is eligible?

- All high school students studying German.
- Students normally apply during their Grade 10 year to participate in the exchange during their Grade 11 year.
