

## Activity List

Students can achieve the intent of the four general outcomes through a variety of movement experiences.

The following are not prescribed or mandatory activities but include some suggestions that may be taught to address the student learning outcomes. Decisions about activities to be offered will be based on many considerations; e.g., safety, (and jurisdictional policy), student needs, facility, and equipment resources, teacher expertise and time allocation for the program.

The following activities are listed in the Guide to Implementation for Physical Education K-12. Most activities affect more than one component of fitness. For the purpose of this list, we have organized the activities by the primary component of fitness effected by that activity. You may choose to stress a different component of fitness related to each activity.

Endurance Activities (E) 4-7 times per week	Strength Activities (S) 2-4 times per week	Flexibility (F) 4-7 times per week
Water games	Water survival techniques	Tai Chi
Hiking	Canoeing	Juggling
Backpacking	Rowing	Bocci
Camping	Horseback riding	Bowling
