**Grade 6 Social Studies Assessment**

**Special-format Practice Tests**

To provide students an opportunity to practise provincial achievement test-style questions and content in Braille, audio, large print, or coloured print versions, Alberta Education is making special-format practice tests available. Tests are offered in all subjects with a corresponding provincial achievement test. Alberta schools with registered Alberta K-12 students may place orders for these tests. Braille tests are available in English and, by request, in French. All tests are provided free of charge, but limits may be placed on order volumes to ensure access for everyone.

For more information or to place an order, contact

**General Description**

*NEW*  
The Grade 6 Social Studies Provincial Achievement Test consists of 50 multiple-choice questions. The test is developed to be completed in 1 hour; however, students may have up to 2 hours to complete the test. For the 2018–2019 school year, since all students will continue to have access to up to twice the official time, it has been determined that the additional 30 minutes is unnecessary.

The test has one booklet. Students record their multiple-choice answers on a tear-out answer sheet.

The test is based on the two social studies General Outcomes in the *Social Studies Program of Studies*:

- **General Outcome 6.1: Citizens Participating in Decision Making**
- **General Outcome 6.2: Historical Models of Democracy: Ancient Athens and the Iroquois Confederacy**

**Knowledge and Understanding** and **Skills and Processes** are integrated into the multiple-choice test. In the knowledge and understanding category, students are tested on their ability to understand generalizations, concepts, related facts, and content. The skills and processes that students are expected to use when answering questions include critical and creative thinking, historical and geographic thinking, decision making and problem solving, research skills, written literacy, and media literacy.

**Values and Attitudes** outcomes are best assessed in the context of the classroom.

*Students may not use a dictionary, a thesaurus, or other reference materials when writing the test.*

If a word that warrants definition is used on a test, it will be defined on the page on which it appears.
Description of Social Studies Assessment Standards

The following statements describe what is expected of Grade 6 students at the acceptable standard and the standard of excellence, based on outcomes in the Grade 6 Social Studies Program of Studies. These statements represent examples of the standards against which student achievement is measured. It is important to remember that one test cannot measure all the outcomes in the Social Studies Program of Studies.

<table>
<thead>
<tr>
<th>Acceptable Standard</th>
<th>Standard of Excellence</th>
</tr>

**Knowledge and Understanding** includes ideas, information, and concepts identified in the *Grade 6 Social Studies Program of Studies*.

**Skills and Processes** include critical and creative thinking, historical thinking, geographic thinking, and media literacy as identified in the *Grade 6 Social Studies Program of Studies*.
Preparing Students for the Social Studies Provincial Achievement Test

Suggestions for Preparing Students

The best way to prepare students for writing the provincial achievement test is to teach the Social Studies Program of Studies well and to ensure that students know what is expected. Many of the skills and attitudes that support test writing are, in fact, good skills and strategies for approaching all kinds of learning tasks.

Teachers are encouraged to familiarize their students with the types of questions that will appear on the test.

Teachers are also encouraged to share the following information with their students to help them prepare for the Grade 6 Social Studies Provincial Achievement Test.

Suggestions for Answering Multiple-choice Questions

• Before you begin, find out how much time you have.
• Ask questions if you are unsure of anything.
• Skim through the whole test before beginning. Find out how many questions there are and plan your time accordingly.
• Answer the easier questions first; then go back to the more difficult ones.
• Do not spend too much time on any one question. Make a mark (*) or (?) beside any questions you have difficulty with and go back to them if you have time.
• Read each question carefully, underline or highlight key words, and try to determine an answer.

• Read all the choices and see which one best fits the answer.
• When you are not sure which answer is correct, cross out any choices that are wrong, and then select the best of the remaining choices.
• If time permits, recheck your answers.
• Double-check to make sure that you have answered everything before handing in the test.
• Read the information given using the strategy that works best for you. You should either
  – look at all the information and think carefully about it before you try to answer the questions OR
  – read the questions first and then look at the information, keeping in mind the questions you need to answer
• Make sure that you look at all forms of the information given. Information may be given in many forms, such as words, charts, pictures, graphs, maps, or cartoons.
• When information is given for more than one question, go back to the information before answering each question.
• When answering “best answer” questions, be sure to carefully read all four alternatives (A, B, C, and D) before choosing the answer that you think is best. These questions will always include a boldfaced qualifier such as best, most strongly, or most clearly in their stems. All the alternatives (A, B, C, and D) are, to some degree, correct, but one of the alternatives will be “best” in that it takes more of the information into account or can be supported most strongly by reference to the information.
Opportunities to Participate in Test Development Activities

Field Testing

All Provincial Achievement Test questions are field tested before use. By “testing” the test questions, students who write field tests have an opportunity for a practice run at writing questions that could be used on future provincial achievement tests. As well, the teachers have an opportunity to comment on the appropriateness and quality of the test questions.

Through the online field test request system, teachers can create and modify field test requests and check the status of these requests. Information regarding the field-test process and the request system is available at Provincial Achievement Tests.

Once the completed requests are received by the Provincial Assessment Sector, classes will be selected to ensure that a representative and sufficiently large sample of students from across the province take part in the field test. Every effort will be made to place field tests as requested; however, because field tests are administered to a prescribed number of students, it may not be possible to fill all requests.

For further information about provincial achievement field testing, see the Field Testing section of the General Information Bulletin.

Working Groups

Teacher involvement in the development of provincial achievement tests is important because it helps to ensure the validity and appropriateness of the assessments.

To be selected to participate in a working group, a teacher must be nominated by a school administrator or superintendent, and that nomination must be approved by the superintendent. To ensure that selected working-group members have appropriate subject matter training and teaching experience, nominees are asked to provide their information to their school administrator so that it can be forwarded to the Provincial Assessment Sector at Alberta Education through the superintendent.
**Test Development**

Teacher working groups are used throughout the test development process to create raw forms of test questions and to review and revise draft forms of provincial achievement tests. These working groups usually meet for one or two days, two or three times per year. Occasionally, these meetings are held on weekends.

To be eligible to serve on a test development working group, a teacher must currently be teaching Grade 6 Social Studies and must have a minimum of two years of experience teaching social studies.

Teachers participating in test development and/or test review working groups are selected from the working-group nominees provided by superintendents of school jurisdictions.
